Announcing our Newest Champion

Capri

Embrace's Chasing A Pot Of Gold

Capri was shown exclusively in the Bred By Exhibitor class. Her first time in the ring as a "special", Capri garnered Best of Breed amongst some fantastic breed entries.

All of this success and Capri is just 11 months old!

We have high hopes for the future with this very showy girl!

North American Sport Dog Association (NASDA)

by *Kathy Swan*

The North American Sport Dog Association (NASDA) was formed in 2016 to demonstrate the breadth of our dogs' olfactory abilities. Dogs are able to pick up scents that don't catch the attention of their handlers. One study estimated that dogs could pick up odors up to 100,000 times better than humans can. Historically these abilities were embraced and many breeds of dogs were developed to assist people in searching, hunting, and locating.

Trials are designed to resemble both historic working and competitive fieldwork as closely as possible. NASDA Working Dog Trials offer an opportunity for all dogs to engage in scent games previously open to only a select few breeds and working dogs. Competing teams can get titles and championships highlighting their merits and abilities within hunt and search situations.

Dogs use their scenting abilities to alert their handlers to the location of the quarry or item. There are currently four classes available: Trailing & Locating (plus optional Brace class), Urban Class, Antler Shed and Search (Lost Item). All classes have four levels: I, II, III and Masters.

Dogs of any breed or mixed breed, fully registered with the North American Sport Dog Association, and 6 months of age or older are eligible to compete. Online registration just takes a couple of minutes and costs ten-dollars per dog. There are optional Puppy Aptitude Tests (PAT) for those pups older than 4 months of age but younger than 9 months of age.

Unlike other venues, in NASDA, the judge makes the call when the dog locates the hide. Time stops when the judge calls "Yes." Rewards allowed at all levels in the quarry area are touch, praise, food and/or toys.

Teams enter the course with a perfect score of 25 points and the Judge deducts points for errors, as listed. All qualifying dogs (20 point minimum) receive a ribbon. Unlike other competitions, there are no placements awarded. Instead, there are bonuses in each class for Best of Breed (5 points) and High in Class (10 points). Teams earning 100 points from Level I class will earn that title. *Please see Master Handbook for complete titling details.*

On August 14 and 15, 2021, the first NASDA trial held in Washington State was hosted by SchaSam Farm. Nearly 30 dogs participated. Most of us were in Level I, with five experienced dogs in higher levels or brace and three puppies in PAT. There were seven Schipperkes competing (Blitzen, Ace, Peeps, Gracie, Missy Glory and Jenny), the largest representation of any breed. Six competed on Saturday and four on Sunday.

None of the Schips ran in everything, but all ran in at least two classes. Each day, there were three trials offered, so teams had three different courses for each class.

Lost was Found

Trailing & Locating was the first class on Saturday morning. It is a combination of Barn Hunt meets tracking. The judge used the quarry box containing two rats to lay a scent pad at each 100' X 100' search area. She then dragged the boxes in meandering paths for the scent trails. Finding the hides is a pass/fail system. Teams have two minutes to complete their hunt. The judge determines a successful find and calls "Yes" when the dog locates it. Handlers must remain ten feet away from the quarry, and may not actively guide the dog to the prey. The boundary is further in higher levels.

The terrain for each trial varied with different heights of vegetation and land contours. Trial 1 was medium grass on top of the hill. Trial 2 was in thicker, taller vegetation sloping down hill. Trial 3 was on short grass with fences and a manure pile at the edge of the search area. Dogs can be either on or off leash for each trial. I opted to take Missy off leash for Trial 3.

Deb Bruner's Ace (Ch Willow's My Aim is True) found the quarry in 19.26 seconds to earn a High in Class (out of 20 dogs) and Best of Best in the first trial.

Ace went on to lead the Schips with two more Best of Breed earning 40, 30 and 30 points in the morning trials. With a total of 100 points, he became the **first Schipperke to earn any NASDA title!** Congratulations to Deb and Ace. Way to blaze a trail. Our six Schipperkes qualified in 17 of the 18 hunts (the deep grass in Trial 2 proved to be too much for my girl in panties).

Run Deb Run

Urban Class was held in the afternoon. The search area is much smaller (20' X 20') to simulate the work of both historic and modern urban hunting dogs. The fundamental feature of the Urban Locating working tests is to show the dog's ability to locate a quarry in a decidedly human environment. Quarry boxes were hidden in a cargo trailer, next to a garden shed steps and in a bucket by some dog training equipment. Searches are done on leash. Our six Schips were perfect with 18 qualifying runs. Ace was again the leader with two BOB. Peeps earned the other one. There were fewer dogs at the Sunday trials.

Search Dog Trials determine the abilities of all breeds of dogs to locate lost items scented with human odor. This form of scent tracking involves the dog identifying an object hidden by the judge. Whereas tracking dogs may follow a particular scent trail, air-scent dogs pick up a scent and seek out its origin - the highest concentration of odor. This is similar to other venues' handler discrimination class.

In Level 1, dogs look for their handler's items; wallet (fabric or leather), key ring (including at least five keys) and clothing (glove, hat, sock, etc). Higher levels require the dogs to find the lost items of strangers. The types of item used are determined by drawing a card. Since there were three trials, our dogs found one of each. There are no trails set for Lost Item searches. The search areas must be "well used." Competitors walked around the area to ensure it was sufficiently human scented. There were only eight dogs in this class and just one Schipperke, Gracie.

Our wallets were hidden under a gym bag in the first area. The keys were on the ground next to a small table in the second trial. The clothing articles were placed on a chair at a fire pit. Gracie is currently my only dog competing other venue scent work trials. She easily found them all.

Shed Class was our last class on Sunday. Searching for shed deer antlers is a growing pastime for whitetail deer hunters who are learning that the

Antler Find

use of the canine greatly increases the odds of recovering shed antlers. The fundamental feature of Shed Dog events is to show the ability of all breeds of dogs to locate and retrieve shed deer antlers. Trials mimic as much as possible a natural hunting terrain. The search area is about 85' X 85' and teams have 2 minutes. In higher levels, dogs must also retrieve the antlers. There is no scent trial. The judge throws the sheds into the search area. Sheds are treated with artificial shed odor prior to each event.

Locations and terrain varied for the shed searches, although the grass was shorter than for the trailing hides on Saturday. All four of my girls looked for antlers. Missy was Best of Breed twice; both were second in class (no bonus) for a total of 85 points. Glory was BOB on the third trial. The girls qualified in all twelve runs.

I am very excited about this new venue and look forward to our next trial in November. Dogs that compete in Barn Hunt seemed to enjoy this game more than finding rats in tubes. Dogs need preparation for the next level of classes, since many titles are within sight. Retrieving antlers is on the training list, as are following more difficult scent trails.

Look for North American Sport Dog Association trials in your area. Headquartered in Reno, Nevada, NASDA was predominately played on the west coast (CA, MT, NV OR). This year trials are also in AL, AR and TN.

General location:

Jacksonville, FLorida

How long have you been a member of SCA?

Under a Year

Name of Schipperke(s) you have/currently owned.

GCH Crosswind's Journey to Serendipity RN CGCA CGCU TKI "Journey" & Tumbleweed Shut Up N' Dance With Me to Serendipity "Tango"

How did you start in schips? -first schip? first experience with the breed?

My life in dogs had always been big dogs, primarily German Shepherd Dogs, but after working with so many larger dogs and having two shepherds in my home I wanted something smaller but a breed that still had tenacity. I went to dog shows to 'window shop' breeds staying with the group I know I watched herding groups... I tossed around the idea of MASs and Cardigans but nothing ever stuck me as. "Oh My God... That's it." That was till I was watching Non-Sporting one day and saw a schipperke in the ring and said "What is that?! I need to know more!" After researching the breed and getting to know their traits it really checked my boxes; Small, shepherd like tendencies. I knew I wanted to have everything to do with this breed and was lucky enough to have Magen Bouchard introduce me to my future breeder Kathy Davis of Crosswind Schipperke to entrust me with a bitch from her up and coming litter. Shortly after, I was whisked into showing with Journey, my first schip, at 9 months old when she picked up both her majors our first weekend out together at the Lone Star Schipperke Club Specialty. Ever since I first laid eyes on the breed, I knew I wanted to preserve them and keep the breed alive for future generations to enjoy.

What do you love about the breed?

My favorite thing about the breed is their ability to make you laugh no matter what has gone on in your life and their ability to adapt to any situation. I love the connection and bond I am able to build with them as that means so much to me to have my best friend in a small dark package.

If involved in sports or conformation with your schips please describe your involvement.

Since before I had schips I knew I wanted to show in conformation and compete in sports. I show my girl regularly and can't wait for our first nationals together! Through showing I have made so many

wonderful friends inside and outside the ring and that is so, so, important!

Any exciting recent brags?

We just got back from the Tampa 2.0 circuit where we took breed each day and placed in NOHS throughout the week!

What is your most memorable schip moment?

My most memorable moment is driving to the Lone Star Specialty with my breeder from Florida... thinking is this really worth this drive? Then going Winner's Bitch and Best Puppy on my second day of showing a dog really left a lasting impression. I didn't really understand the gravity of what we achieved till much later. I'm so thankful to the breeders who preserve this breed for people like myself to enjoy and become obsessed with. I also want to thank everyone in the schipperke community who has been so welcoming and helpful to this schip-crazed newbie. I have been so flabbergasted by the kindness and generosity of those within the breed.

Any additional remarks/stories you would like to share?

Share a photo of you and your schips!

Sport Alert! International Dog Parkour Association

By: *Magen Bouchard*

Dog Parkour focuses on safety and accessibility for all humans and canine companions. Dog parkour can be a wonderful outlet for Schipperkes to exert energy while exhibiting their agile nature in a productive and safe venue. Competitors submit videos for review and once requirements are completed titles are awarded.

So, what is it? From the International Dog Parkour Association website: “Dog parkour, sometimes known as urban agility, is an activity based on the same principles. It is a challenging, but fun, physical activity in which the dogs learn to interact with their environment. Just like in the human version, in dog parkour, we work on ways to conquer obstacles, such as climbing, balancing, and jumping. Dog Parkour is a non-competitive event, but it is a titling event”.

It is my belief that Schipperkes can excel within this sport as it calls to the adventurous and athletic attributes of our beloved breed.

Schipperke puppy demonstrating place command on an object

To date, two schipperke hold titles within the sport.

Training Level title - PKD-T	Luke	Schipperke
Novice Level title - PKD-N	Deloran's Nick of Time	Schipperke

Announcing Our New Champion!

CH Willow's Moral of the Story

Marcus

Born 6/8/19 - MPSIII B Normal by Parentage
Pictured: Judge Don Hanson

Finally! We were able to get back out for some shows! And Marcus did not disappoint us – even though he chose to sport his summer outfit! In Washington the weekend of the Cascade Schipperke Specialty he went Winners Dog at the Puyallup Valley Dog Fanciers show for a 5-point major. Then Winners Dog, Best of Winners and Best of Breed over specials at the Seattle Kennel Club show for another 5-point major to finish his AKC championship! He was also awarded an Award of Merit at the Cascade Schipperke Specialty.

These recent wins finished Marcus with four majors.

A Quick List of Canine Sports for Your Dog

BY [KRISTIN KALDAHL](#)

Kristin is a dog agility instructor and competitor with 20 years in the sport. In the U.S., trained dogs regularly compete in a wide variety of exciting events.

Sports and Competitions for Your Dog

Half a century ago, dog owners faced limited opportunities for competition fun with their dogs. While some canine sports like disc dog and flyball were in their infancy, few dog sports could be easily found nationwide.

Fast-forward to today when the range of sports available to dogs and their owners runs the gamut, affording any dog a competition that fits her personality and abilities. Now, mixed breeds can compete beside their pure breed cousins in most dog sports. No longer are mixes labeled as second-class citizens when it comes to sporting fun. All dogs are welcome.

Some of the benefits you can gain from getting involved in dog sports include a stronger bond with your dog, a better-behaved canine companion, new friendships, and a healthier lifestyle for both you and your dog.

Below is a quick and dirty list of some of the most common canine sports practiced in the United States. The American Kennel Club (AKC) offers competitions and title recognition in many of these sports. You can visit their website at akc.org to learn more or simply Google these sports or competition organizations. Study the following list and see which sport best fits you and your dog.

The Top 11 Dog Competition Types in the U.S.

1. Barn Hunt
2. Agility
3. Nose Work
4. Dock Diving
5. Obedience
6. Lure Coursing
7. Flyball
8. Rally
9. Disc Dog

10. Trick Dog
11. Freestyle

1. Barn Hunt

In Barn Hunt, rats are placed in safety tubes and hidden in a maze created with bales of hay. A dog sniffs through the maze searching for the rats. When she locates a rat, she alerts, and her handler, who is following, shouts “Rat!” It's a fun sport to watch and compete in and has been gaining popularity of late. It's a great sport for dogs who love to sniff out critters. The Barn Hunt Association offers titles that can be recognized through the AKC.

- **Training:** Low to moderate
- **Physical requirements of dog:** Low to moderate
- **Physical requirements of human:** Low

2. Agility

A timed event, agility requires a dog and human handler to navigate a course of obstacles such as jumps, tunnels, teeter, A-frame, and more. The team successfully completing the course with the fewest mistakes and the fastest time wins. Agility has not stopped growing since it came to the US over 30 years ago, and today the AKC records over one million entries a year. There are other organizations offering agility competitions including USDAA (United States Dog Agility Association), NADAC (North American Dog Agility Council), UKI (UK Agility International), CPE (Canine Performance Events) and more.

- **Training:** Moderate to extreme
- **Physical requirements of dog:** High to extreme
- **Physical requirements of human:** Moderate to extreme

3. Nose Work

Also called scent work, this fun sport requires less physical activity from the human and canine, but it requires strong communication skills. In competitions, dogs sniff out hidden cotton swabs scented with essential oils such as Birch, Anise, Clove, and Cypress. Handlers have to read their dogs' alerting signals to know when a hidden cotton swab has been discovered. Another growing sport, nose work is offered by organizations such as the NACSW (National Association of Canine Scent Work), USCSS (United States Canine Scent Sports), and the AKC.

Sports for Your Dog

- **Training:** Moderate to High
- **Physical requirements of dog:** Low
- **Physical requirements of human:** Low

4. Dock Diving

Another growing dog sport, dock diving is simple enough. The dog jumps off of a dock or platform into a body of water, often chasing a thrown toy. The dog who jumps the farthest wins. This fun, warm weather sport is ideal for water-loving dogs. Competitions can be found through such organizations as DockDogs and NADD (North America Diving Dogs.)

- **Training:** Low to moderate
- **Physical requirements of dog:** Moderate to high
- **Physical requirement of human:** Low

5. Obedience

Heading into its ninth decade, obedience is one of the older sports, but it's changed over the years. If you haven't competed lately, you may wish to refamiliarize yourself with the rules. It's a precision event where dogs are judged on their ability to heel, stay, come, retrieve, jump, and more.

Aside from the AKC, some other organizations offering obedience competitions include the UKC (United Kennel Club) and ASCA (Australian Shepherd Club of America).

- **Training:** Moderate to Extreme
- **Physical requirements of dog:** Moderate
- **Physical requirements of human:** Moderate

6. Lure Coursing

In this fun sport, a dog chases a lure (usually a white, plastic bag) pulled by a wire and pulley. The lure moves fast through a course set on a flat, open field, and the dog with the fastest time chasing the lure through the course wins. Organizations offering lure coursing include the AKC and the UKC.

- **Training:** Low
- **Physical requirements of dog:** Moderate to extreme
- **Physical requirements of human:** Low

7. Flyball

A loud sport, flyball involves two teams of dogs racing down a line of hurdles, slamming into a box that spurts out a tennis ball, and returning the ball back over the jumps to their owners where the next dog in the team is released to do the same thing. The fastest team wins. Flyball is found among organizations such as NAFA (North American Flyball Association) and U-FLI (United Flyball League International).

- **Training:** Moderate to high
- **Physical requirements of dog:** Moderate to extreme
- **Physical requirements of human:** Low

8. Rally

A form of obedience, Rally continues to gain traction. In this sport, a dog heels with his owner through a course of signs, stopping at each sign to perform whatever behavior(s) the sign requests. Another precision sport, points are removed for errors such as missed signs, not performing the behaviors correctly, or errors in exactness. Some of the organizations offering Rally are the AKC, the UKC, WCRL (World Cynosport Rally Limited), and ASCA.

- **Training:** Moderate to high
- **Physical requirements of dog:** Low
- **Physical requirements of human:** Low to moderate

9. Disc Dog

A spectator favorite, disc dog sports involve a person throwing a flying disc for their dog to catch. There are several different types of classes, but the most eye-catching are the routines where the dog and handler perform intricate trick after trick. Some of the organizations offering disc dog competitions are Skyhoundz, UFO, USDDN (United States Disc Dog Nationals), AWI (Ashley Whippet Invitational), the Quadruped, and more.

- **Training:** Moderate to extreme
- **Physical requirements of dog:** Moderate to extreme
- **Physical requirements of human:** Moderate to extreme

10. Trick Dog

Sports for Your Dog

A great option for the dog and owner who can't travel to competitions, trick dogs learn a variety of specified tricks and perform them in front of an evaluator. Some organizations offering trick titles include the AKC and DMWYD (Do More With Your Dog).

- **Training:** Low to high
- **Physical requirements of dog:** Low to moderate
- **Physical requirements of human:** Low

11. Freestyle

Often called “Dancing with Your Dog,” Freestyle obedience is basically obedience and tricks set to music. Routines mix choreographed dance with obedience and can be humorous to moving. Organizations offering freestyle include WCFO (World Canine Freestyle Organization), CFF (Canine Freestyle Federation), and MDSA (Musical Dog Sport Association).

- **Training:** Moderate to extreme
- **Physical requirements of dog:** Moderate to extreme
- **Physical requirements of human:** Moderate to extreme

Other Canine Sports Your Dog May Enjoy

- Tracking
- Herding
- Earthdog
- Hunt and field events
- Skijoring
- Trieball
- Schutzhund

Go Play!

Is your dog shy or aggressive? Some of the above sports offer video competitions where you can video your dog doing the behaviors. These video competitions are great alternatives for dogs with behavior issues that keep them from competing safely among other dogs and people.

There's a dog sport for every human-canine team. Research, choose a sport that fits you and your dog's strengths and weaknesses, find a good instructor, and go have fun! The days of doggie couch potatoes

Be part of the Ohio team

It takes a lot of effort and collaboration to put on a National event.
Do you have a lot of time to give, or just a small fragment out of your busy schedule?
Well, we need you to join the 2022 National Planning Committee!
There are large and small tasks to perform and each are important.
Many hands make for a lighter load...and together a successful Specialty week.

A complete list of required tasks will be posted shortly. You may not be able to attend, but you can still contribute! In the mean time if you want to know more, or have a special interest, please let us know.

For more information, or if you are willing to chair an event committee, or perform any required task, please contact the SCA 2022 National Specialty Chair, Marnie Layng at mlayng@bell.net. Or Co-Chair, Jaime Stanchina at embraceskips@gmail.com.

CAN CH Mardeck's The Magic Ingredient **Butter**

Butter makes everything better!

Shown winning Group 2nd under judge Stephen Dainard, on July 15, 2021. That was his first day back in the ring in almost two years when he was 11 months old. Over the five days Butter was shown in what I call the Lombardy, ON marathon, he was also awarded Group 3rd by Sandra Orford and Group 3rd by Joy Hodgkinson. Thank you to these judges for recognizing Butter's merit despite my senior handling.

AM CAN NZ CH Exmoor Mana Magic Mana

Shown winning Group 4th under judge Phil Wending, on July 17, 2021.

For Mardeck & Deloran, acquiring Mana was motivated by us wanting a source of gene diversity without being a complete outcross. Mana's parents are "Gemma", NZ CH Exmoor All Black Bright Star who brings in top New Zealand and UK bloodlines and his sire is our own "Cozmo", AM CAN NZ CH. Mardeck's The Sorcerer's Son, ROM. *Mission accomplished.*

Mana over the three days that he was shown in Lombardy, ON, was also awarded Group 3rd by Lucie Paradis and a Group 4th by Corinne Walker. Thank you to all the judges that have recognized Mana's merit.

Schipperke Breed Standard (AKC)

General Appearance

The Schipperke is an agile, active watchdog and hunter of vermin. In appearance he is a small, thickset, cobby, black, tailless dog, with a fox-like face. The dog is square in profile and possesses a distinctive coat, which includes a stand-out ruff, cape and culottes. All of these create a unique silhouette, appearing to slope from shoulders to croup. Males are decidedly masculine without coarseness. Bitches are decidedly feminine without over refinement. Any deviation from the ideal described in the standard should be penalized to the extent of the deviation. Faults common to all breeds are as undesirable in the Schipperke as in any other breed, even though such faults may not be specifically mentioned in the standard.

Size, Proportion, Substance

Size—The suggested height at the highest point of the withers is 11-13 inches for males and 10-12 inches for bitches. Quality should always take precedence over size. **Proportion**—Square in profile. **Substance**—Thickset.

Head

Expression—The expression is questioning, mischievous, impudent and alert, but never mean or wild. The well proportioned head, accompanied by the correct eyes and ears, will give the dog proper Schipperke expression.

Skull—The skull is of medium width, narrowing toward the muzzle. Seen in profile with the ears laid back, the skull is slightly rounded. The upper jaw is moderately filled in under the eyes, so that, when viewed from above, the head forms a wedge tapering smoothly from the back of the skull to the tip of the nose. The stop is definite but not prominent. The length of the muzzle is slightly less than the length of the skull.

Eyes—The ideal eyes are small, oval rather than round, dark brown, and placed forward on the head.

Ears—The ears are small, triangular, placed high on the head, and, when at attention, very erect. A drop ear or ears is a disqualification.

Nose—The nose is small and black.

Bite—The bite must be scissors or level. Any deviation is to be severely penalized.

Neck, Topline, Body

Neck—The neck is of moderate length, slightly arched and in balance with the rest of the dog to give the correct silhouette. **Topline**—The topline is level or sloping slightly from the withers to the croup. The stand-out ruff adds to the slope, making the dog seem slightly higher at the shoulders than at the rump. **Body**—The chest is broad and deep, and reaches to the elbows. The well sprung ribs (modified oval) are wide behind the shoulders and taper to the sternum. The forechest extends in front of the shoulders between the front legs. The loin is short, muscular and moderately drawn up. The croup is broad and well-rounded with the tail docked. No tail is visually discernible.

Forequarters

The shoulders are well laid back, with the legs extending straight down from the body when viewed from the front. From the side, legs are placed well under the body. Pasterns are short, thick and strong, but still flexible, showing a slight angle when viewed from the side. Dewclaws are generally removed. Feet are small, round and tight. Nails are short, strong and black.

Hindquarters

The hindquarters appear slightly lighter than the forequarters, but are well muscled, and in balance with the front. The hocks are well let down and the stifles are well bent. Extreme angulation is to be penalized. From the rear, the legs extend straight down from the hip through the hock to the feet. Dewclaws must be removed.

Coat

Pattern—The adult coat is highly characteristic and must include several distinct lengths growing naturally in a specific pattern. The coat is short on the face, ears, front of the forelegs and on the hocks; it is medium length on the body, and longer in the ruff, cape, jabot and culottes. The ruff begins in back of the ears and extends completely around the neck; the cape forms an additional distinct layer extending beyond the ruff; the jabot extends across the chest and down between the front legs. The hair down the middle of the back, starting just behind the cape and continuing over the rump, lies flat. It is slightly shorter than the cape but longer than the hair on the sides of the body and sides of the legs. The coat on the rear of the thighs forms culottes, which should be as long as the ruff. Lack of differentiation in coat lengths should be heavily penalized, as it is an essential breed characteristic.

Schipperke Breed Standard (AKC) (con't)

Texture—The coat is abundant, straight and slightly harsh to the touch. The softer undercoat is dense and short on the body and is very dense around the neck, making the ruff stand out. Silky coats, body coats over three inches in length or very short harsh coats are equally incorrect.

Trimming—As the Schipperke is a natural breed, only trimming of the whiskers and the hair between the pads of the feet is optional. Any other trimming must not be done.

Color

The outer coat must be black. Any color other than a natural black is a disqualification. The undercoat, however, may be slightly lighter. During the shedding period, the coat might take on a transitory reddish cast, which is to be penalized to the degree that it detracts from the overall black appearance of the dog. Graying due to age (seven years or older) or occasional white hairs should not be penalized.

Gait

Proper Schipperke movement is a smooth, well coordinated and graceful trot (basically double tracking at a moderate speed), with a tendency to gradually converge toward the center of balance beneath the dog as speed increases. Front and rear must be in perfect balance with good reach in front and drive in the rear. The topline remains level or slightly sloping downward from the shoulders to the rump. Viewed from the front, the elbows remain close to the body. The legs form a straight line from the shoulders through the elbows to the toes, with the feet pointing straight ahead. From the rear, the legs form a straight line from the hip through the hocks to the pads, with the feet pointing straight ahead.

Temperament

The Schipperke is curious, interested in everything around him, and is an excellent and faithful little watchdog. He is reserved with strangers and ready to protect his family and property if necessary. He displays a confident and independent personality, reflecting the breed's original purpose as watchdog and hunter of vermin.

Disqualifications

A drop ear or ears.

Any color other than a natural black.

Approved November 13, 1990

Effective January 1, 1991
